

# Hot Rod Circuit, Cool With Me

All the aggravation you say  
I never listen to the words you say to me  
Maybe it's my attention span all these things are happening  
I didn't mean to ignore you whatever that you're saying  
Whatever is on your mind I know you came to show me but  
You know that it's not the time  
If it's cool with you its cool with me
