

# Hot Rod Circuit, Knees

You can wake me when we get there  
Because I don't care if I see the daylight  
And I'd run there but my knees are weak  
And my body needs to be close to you sometime soon

I don't ever need you to yell at me  
Temperature will rise 98 degrees  
I don't ever need you to yell at me  
Temperature will rise, so I can barely breathe
