

Hot Rod Circuit, Moonlight - Sunlight

Like the sunlight you shine
when your body's against mine
like the moonlight you ache
like the blood in my veins

You make me feel like I'm stoned
never have I felt so shallow
felt so alone in my head
(please take me back where the feeling's not dead)

In the moonlight you fade
in the dawn of a new day
at the sunlight I blaze
want to feel like this every day
