

Hot Rod Circuit, Radio Song

i got my ways
i've got my reasons
i could sit for days
and count the reasons why
i like to sit around and get high
and waste my life away

looks like another nervous breakdown
i could suck it in
turn another bottle down
up late for a second time straight this week today

Listen to the radio with my friends
sitting on the left side
listen to the radio with my friends
sitting on the right side

waking up staired at the ceiling
as i cling to you
cant stop this feeling
up late for the second time straight this week today

I got my way
i've got my reasons
i could sit for days
and count the reasons why
i like to sit around and get high
and waste my life away

Listen to the radio with my friends
sitting on the left side
listen to the radio with my friends
sitting on the right side

Listen to the radio with my friends
sitting on the left side
listen to the radio with my friends
sitting on the right side

Listen to the radio with my friends
sitting on the left side
listen to the radio with my friends
sitting on the right side
