

Hot Rod Circuit, The Pharmacist

Lie awake wondering
if things could've been much different
second chance whats become
of a friendship if you can call this one
stayed in touch stood behind
while i gave you space
and you invade mine well
everyone makes mistakes

you let me down for the last time
truth prevails
and theres nothing you can hide
and i wash my hands of you
getting on with my life
getting on with my life
getting on with my life

wanna call and catch up
but no matter what i know you still suck
took the drugs from my friends
what ever were you thinkin?
stayed in touch stood behind
while i gave you space
and you invade mine well
everyone makes mistakes

you let me down for the last time
truth prevails
and theres nothing you can hide
and i wash my hands of you
getting on with my life
(x2)

and the shit remains the same
and theres' no difference
in this stupid world we know
(x2)

you let me down for the last time
truth prevails
and theres nothing you can hide
and i wash my hands of you
getting on with my life
