

Hot Rod Circuit, You Kill Me

Pick up the pieces, look what you've done to us
I'm sick & tired of your bullshit promises
I'm sick & tired of your bullshit promises

And it happens all the time, you said it happens all the time
Will the ones that you fooled let you down?

Do you have to go right now? (x4)

Pick up the pieces, look what you've done to us
Sick and tired of your bullshit promises
Sick and tired of your bullshit promises

And it happens all the time, you said it happens all the time
Will the ones that you fooled let you down?
