

Hot Water Music, Andy - Leatherface

Act One, a girl walks on to screen
An attention driven whore, a mindless fiend
She cries for days and weeks
But nowons attention she seems to keep
Shes falling.
Just screaming and calling,
Shes falling
Just a struggeling actor
Missing a key factor
Everytime somewon offers a hand
Shes retorts with an awful demand
And againshes falling
Just falling
Screaming, calling, drowning, stalling
But always falling
A knock on your heart sais let us in, let us in!
Nobodys gome, a reply as a razor meets skin
Falling..
So were gathered here today
In hate, love, passion and dismay
Of a girl we resent and repent
From now on let your love project
Lest we forget
From a thousand words Id have to pick
I can think of only one that will stick
Passion
Describes her life and moves
That makes the cast and crew
Never spoil the ending.
