

# Hot Water Music, Better Sense

to shed skin and begin an intake  
that will make a difference in clear thinking  
for conquering any fear that is thrown in direction  
when at a weak point or time of suffering the edge  
won't quit if there is no giving in to what drags on  
to be negative or seem wrong to live  
to carry back home with full intent and better sense  
recognize what is false and part with it  
knowing doubtless by instinct which triggers  
thought on how to grow in soul without gold or praised lies  
which keep the sheep all right  
with anything that seems safe and convenient
