

Hot Water Music, No Division

we've been locked up and run right down
been pushed aside for speaking out against ways of division
set to hold us down to put us back in line when we step out
but i'm not living under them when we could
when we could rise above a culture that says
we are better than worse than anyone that's not like us
we'll sing our hearts in unity that we won't obey or follow hate
we stand together we stand with no division
and the ways of old will be swept away
