

# Hot Water Music, No Division

we've been locked up and run right down  
been pushed aside for speaking out against ways of division  
set to hold us down to put us back in line when we step out  
but i'm not living under them when we could  
when we could rise above a culture that says  
we are better than worse than anyone that's not like us  
we'll sing our hearts in unity that we won't obey or follow hate  
we stand together we stand with no division  
and the ways of old will be swept away
