

Hot Water Music, Position

prepare yourself
for the moments of the breakdowns of the questions
this is what keeps us going down so don't let it push us inside
this is what i despise is that treason since my days
i've learned some certain ways to keep away from certain ways
it's what i've learned
it's what i've made
sometimes i am put down but i'm sure to stand up
like a champion
like a soldier with strong will
sure i think like anyone about what is about to come
but what is the point in dwelling when we all could be sharing this
is what i've learned and made and i won't back down
from my right of standing or from my choice of position
