

# Hotboii, Nobody Special (feat. Future)

If you stand for nothing, you'll fall for anything  
I once said I love her, I told her anything  
No you don't deserve a Birkin, not even a chunk of change  
I break hearts, I'm a problem, we don't want the fame  
Shawty pressure but I would never run her way  
No, nobody special, I feel all these girls the same  
That talking shit be extra I thought you knew for what you came  
And if you don't then next one still gon' make me come the same

I'm just fucking on Alexis reminding me of whatshername  
But don't ride me like a Tesla but I drove up left them hoes insane  
Kayla gripping on my necklace and fucking let her wedding change  
This ain't her ex, I got her nigga, we still be fuckin', I won't ever break  
Trying do shit alone but the way she throw it can't make no better babe  
Type of wet when I had it in days make me go meditate  
Talk bout tz tz oh that poo poo stank, stanky little bitch come up my way  
It's ironic Tisha suck me in the yo and she on my hook today  
Tati couldn't even get my dick hard but wanted a dinner date  
I got a cougar bitch so classy I only wanna fuck her in a Wraith  
Lil Barbie she got track speed, I had to grip her legs  
And then I kicked her out then helped her leave I grabbed that bitch the rake

If you stand for nothing, you'll fall for anything  
I once said I love her, I told her anything  
No you don't deserve a Birkin, not even a chunk of change  
I break hearts, I'm a problem, she still wanna stay  
Shawty pressure but I would never ride her way  
You nobody special, I feel all these girls the same  
Talking shit be extra I thought you knew for what you came  
And if you don't then next one still gon' make me come the same
