

# Hotdog, The Worse Feeling

People say's that it's better be free  
But that way doesn't look like me  
I want your love  
I cannot solve ...  
The pain inside my Heart

I don't want things to go this way  
I just give you love  
But you only want me to play  
with your game, it makes me feel lame...  
This is the worse feeling

You said it was all my fault  
I know you aren't right  
All this thing is cause by your default  
I don't fight, i dont hate  
I just know your are late  
Late to make me fall in your feet  
I know that i cannot breathe  
Without your love  
But i know this problem will be solve

There's so much pain inside my Heart  
And you don't feel sad about that  
That makes me get mad  
I give the most of me  
And pain is all that i receive

Can't look at your eyes  
They make me remember things  
And i almost cry...  
But i wouldn't cry  
I had so much pride  
Even if i'm broke inside

This is the Good-bye, i'm leaving without a fight  
I hope your night's based all in tears  
I'm right now without any fear  
About what is goin to happend with me  
I thing i'm better free
