

Hothouse Flowers, Used To Call It Love

you can lean on me anytime
you can take my hand, I don't mind
never ever worry, yeah, it mightn't ever happen
on the darkest night, come to me
when you're feeling alone, let it be
we won't let it win, yeah, it mightn't ever happen
you can love me now
you can love me now
you can love me now, I'm feeling something real
you can love me now
You can love me now
take take take take take take take me
when I look in your eyes I can see
there is nowhere I would rather be
these are old wounds baby, yeah, it might just happen
it might just happen, it might just happen
it might just happen
you can love me now.....
