

Houk, Pain

music/lyrics - D. Malejonek

I was sleeping for long long time

Now I know my eyes were blind

Yes it was so long long sleep

And that sleep was much too deep

You're surrounded

Like a sheep by wolves

Standed alone face to face with the foes

Never stop

Never looking back

It was ambush in the night

chorus: Pain will pass away

Sorrow will never stay

Peace and love remain

And we'll meet again

He was called - Nazareene

Came one day on the planet Earth

To break - our chains

To save - our souls

To set us set us free

chorus: Pain will pass away

Sorrow will never stay

Peace and love remain

And we'll meet again
