

House Of Games, 24 hours

24 hours, I don't like the way you talk with me
24 hours, remorse - all mine
24 hours, no secrets, tricks or lies from you
Cause you're conscience - and you are my key
and escape from guiltyness
I can hear you're say'n come with me - come with me now
I want to heal your sacred place - come with me
Please forgive me, my mistakes so many times - it's my fault
Digging deeper - I can feel your touch my soul
Sometimes I'm betrayed - betrayed by myself I know
you're conscience - and you are my key
and escape from guiltyness
I can hear you're say'n come with me - come with me now
I want to heal your sacred place - come with me
I can hear you're say'n come with me - come with me now
I want to heal your sacred place - come with me
