

# House Of Heroes, Leave You Now

Ten long years I've spent in the sun where I  
Broke my back to avoid the gun, but I  
Never cracked and never gave you up  
I just did my time for you

Yeah, I can't leave you now  
Yeah, I got nowhere to go anyhow

When you sleep, don't dream of me  
I don't wanna break your heart 'til I'm breaking free  
When I get out out I'm gonna run with you  
We're gonna make our way to America

Yeah, I can't leave you now  
Yeah, I got nowhere to go anyhow

Ten long years I've spent in the sun where I  
Broke my back to avoid the gun, but I  
Never cracked and never gave you up  
I just did my time for you

And they can call me public enemy  
Brand my skin for treachery  
What they long to have, they can't take away  
From me

My hope is going by the power of love  
The highest wall that they erect is not a prison in love  
And like the river that is winding takes its water to sea  
The only emblem that is fitting is you and me, baby

Yeah, I can't leave you now  
Yeah, I got nowhere to go anyhow

When you sleep, don't dream of me  
I don't wanna break your heart 'til I'm breaking free  
When I get out out I'm gonna run with you  
We're gonna make our way to America
