

House Of Heroes, Sooner Or Later (You'll Want It)

I'm not your enemy, baby
I'll be the one who takes you home
When the lights go out on this ghost town
And you don't owe me anything
We just can't face our fears alone
Live tonight, tomorrow never knows where we'll be

Baby's on fire like the colors of fall
The radio's up, we're under control
And sooner or later
Sooner or later
You'll want it all
Baby's on fire like the colors of fall
We placed our bets on broken hearts
But sooner or later
Summer was over
And we lost it all

I feel it pulling me lately
Like I want more than all I've known
Like graceful winds have blown my heart up here
And with this untapped energy
We'll carve our names in the unknown
With goodness always nipping at our heels
Where we'll be

Baby's on fire like the colors of fall
The radio's up, we're under control
And sooner or later
Sooner or later
You'll want it all
Baby's on fire like the colors of fall
We placed our bets on broken hearts
But sooner or later
The summer was over
And we lost it all

It always seemed like we had no time
Like the world would end if we closed our eyes
So we hold our breath, and we took the dive
We never had a chance, but I'm happy we tried

It always seemed like we had no chance
Like we had no time at all
Like we had no chance
No time, no time again

Baby's on fire like the colors of fall
The radio's up, we're under control
And sooner or later
Sooner or later
You'll want it all
Baby's on fire like the colors of fall
We placed our bets on broken hearts
And sooner or later
Summer was over
And we lost it all

Baby's on fire like the colors of fall
The radio's up, the windows down
And sooner or later
Sooner or later
You'll want it all
Baby's on fire like the colors of fall

We cut our teeth with careless hearts
And sooner or later
The summer was over
And we lost it all
