

House Of Krazees, A Big Dark House

Theres a big dark house on the hill, a very large diraelct house. Its known locally as hangmans folly

Oh I'm back again let's all play

Horrors go away souls in your face

Bustin like glasses killin by the masses

Still whoopin asses raps is still tragic

When you close your eyes im gettin closer

Go ahead you better hold up the windows pop like toasters

Surprise open your mind and realize I'm back again

Still the same band now its skrapz locked up in this pen

Trick or treatin daily man i need your soul I'm a survive

Anniversary's here 5 years ago i died

Like Michael f**k Myers like Jordon Lykos

The same gears plus a few more throwin rocks at my corpse

But i remain there with all the creepy plottin a plan

To figure out how the f**k to take the world again world again

Waitin by the black rose clutch it im weak

Tears keep my mentals roamin through zones you couldn't reach

****chorus****

The night that the killas came home WOW

Strike those who doubt the power of House Of Krazees

The night that the killas came home WOW

October 31st is my date of birth the season

The night that the killas came home WOW

Nigga im homebound check it

The night that the killas came home WOW

Season of the pumpkin got your mentals roamin

Creepin out my coma i scream trick or treat one time

Blood stains from my head to my feet and thats why

Im feelin nerves for the screams that im hearin in my dreams

Been asleep 5 years like forever it seems

Moon light gleams deep to my murderous eyes

I be in and out the night like fireflies

Recognize the emotions i been keepin in keepin in

Bound to release once again once again

I can smell the fear of the weak and im feedin off it

Blood clogged deep in my throat but I'ma cough it

Resurrectin terror with the ROC

aka SOL and we playin for keeps

And as the night keeps my personalities is flippin

By the time you put your clip in your bodys drippin

And im sippin on my gin and tonic

Watchin you vomit flyin through the night like a comet

Im comin home...

****chorus till end****
