

House Of Lords, Love Don't Lie

I walk the night alone
like I'm frozen here in time
is this love right or wrong
it's still running through my mind

I tried to live without her
make believe I don't care
it's hard not to think about her
where her face is everywhere

Now I can finally say that I love her
and I'll never have to hide the truth again
Love don't lie when it's real
I can't pretend I don't care no more
My heart can't hide how I feel
Love don't lie
Love don't lie

The days are filled with laughter
and the nights are filled with tears
if love can last a moment girl
it can last a thousand years

Love don't lie when it's real
I can't pretend I don't care no more
My heart can't hide how I feel
Love don't lie

Love don't lie when it's real
I can't pretend I don't care no more
My heart can't hide how I feel
Love don't lie

Love don't lie
Love don't lie
