

Howie Day, Disco

every night is disco night
with you i'm living every moment for you
seeing things in a different way
oh my god i'm thankful that you're leaving

-

is there something we can do, this afternoon
is there nothing left to say
hold your love, cautions you
you are something new
afternoon

-

i'll make it up to you somehow
i'm laughing and you're dancing like my mother
i'll teach you to go off on me
shake, shake from the horror
mirror naked feeling high
radio is not store bought its stolen
another night is going out
it's saturday and now you've got the fever

-

is there something we can do, this afternoon
is there nothing left to say
hold your love, cautions you
you are something new
afternoon

-

is there something we can do, this afternoon
is there nothing left to say
well hold your love, and warning you
and you are so beautiful
you'll just have to do
is there nothing left to say
