

# Howling Bells, I'm Not Afraid

I've been where the sun don't shine  
I've been where the trees have all died  
I've been where there's no pathway or door  
And I'm not afraid anymore

Been in a place where no one believes  
The things that I said  
Or the vision I'd see  
So I had to protect my life  
And not be afraid anymore  
Fear is not real unless you want it be  
At a level of yourself  
It serves some need  
You can let it go  
Or hold on till the end  
It's all up to you my friend

I've been where the sun don't shine  
I've been where the trees have all died  
I've been where there's no pathway or door  
And I'm not afraid anymore
