

HRVY, I Wish You Were Here

I wish you were here Every time you disappear
I'm missing your body let me make it clear
Every time you disappear I
I want you near, I...

i try to stay cool about it
cos you always seem cool without it
why do I try
I guess I want you to want me
when I'm say that I'm cool about it
I;mreally not cool about it
why don't you come on by
cos I really want you to want

you know you're all I think about
do't make me say it out loud
cas all I think about is you

I wish you were here Every time you disappear
I'm missing your body let me make it clear
Every time you disappear I
I want you near, I wish you were

taking my t0shirt off
making this whole world stop
up on the table top
making this kitchen rock

I try to saty cool about it
why do I try
I guess I want you to want me

I wish you were here Every time you disappear
I'm missing your body let me make it clear
Every time you disappear I
I want you near, I wish you were
