

# Hudson Taylor, Care

You're not under cover  
You're just connected to the shame of your secret lover  
It never works out in the end  
if it keeps on going you might lose your only friend  
It's all connected, baby,  
It's all connected to our brains  
Think a little harder when you're feeling all alone

For heaven's sake!  
I have been screaming at you all time  
It makes no sense how he treats you, how could you miss the sign,  
He's been cheating on you, messing with your head,  
I only say it cause I care

Maybe I dream about you  
Maybe I'm too afraid to say  
I think about you every second of the day  
He's a hypocrite and he should be locked up in a cage  
It's all connected baby,  
It's all connected to our brains  
Think a little harder when you're feeling all alone

For heaven's sake!  
I have been screaming at you all time  
It makes no sense how he treats you, how could you miss the sign,  
He's been cheating on you, messing with your head,  
I only say it cause I care

I only say it cause I care

For heaven's sake!  
I have been screaming at you all time  
It makes no sense how he treats you, how could you miss the sign,  
He's been cheating on you, messing with your head,  
I only say it cause I care  
/2x

Say it cause I care  
Say it cause I care
