

# Huey Lewis & The News, Forest For The Trees

When you're a young man, down and out  
You really need someone to help you out  
It looks like life or death is your only choice  
It's really hard to see  
The forest for the trees  
The forest for the trees

And when you get angry and everything's black or white  
You should know that it isn't that simple, no one's always right  
You know that your life is worth living  
You gotta start taking if no one else is giving  
And if you're not afraid to open your eyes  
You may be pleasantly surprised  
Things are never as bad as they seem  
You just gotta learn to see  
The forest for the trees

So if you need somebody, tell them please  
If you want someone, get up off your knees  
Things are never as bad as they seem  
You just gotta learn to see  
The forest for the trees
