

Huey Lewis & The News, I Never Walk Alone

I remember our old neighborhood
Everyone there, they understood
You could wind up stranded in the lost and found
So you better stick together if you want to stick around
Now me and the boys got our own little plan
Somebody out there will understand
And we'll have the world in the palm of our hand

I never walk alone, I never walk alone

It isn't what you've got it's who you know
We take that with us wherever we go
We stick together and we have our fun
You know we're taking our days one by one
And when there's trouble in my face
I'm a tired runner in the human race
It's so good to see a familiar face

I never walk alone, I never walk alone
