

# Huey Lewis & The News, Small World (Part One)

All around the world  
There are people like you and me  
From the poorest beggar in the street  
To the richest king and queen

Some people take  
And then they never give  
You gotta learn to give and take  
If yo wanna learn to live  
In a small world  
Small, small world

Now we can  
Fight one another  
Like they to on T.V.  
Or we can  
Help one another  
The way it's supposed to be

If we all give a little  
It could really mean a lot  
It's a small world  
But it's the only one we've got  
Small world  
Small, small world
