

HugeCCM, Hate For Hate

hey little boy gotta to go straight to home
It's time for the rebel words
hey little human with your pain inside
will i take a chance to knock you down

when they say, you will fail
just make shure they will cover by shame

hey little boy gotta find your own soul
its for yourself as one big reload
hey little human with a fear in your mind
break to your lies and start to scream "wrath"

hate for hate,blood for blood,pain for pain
bring it all!
