

Huggy Bear, No Sleep

no sleep till the location is found
no sleep till that man is out of town
no sleep till i can't hear the sound
of your voice your voice telling me there is no choice
no sleep till that man is found
no sleep till he's kicked right out of town
no sleep till i can't hear the sound
of your voice your voice telling me there is no choice
your voice your voice your voice
there is a choice.
