

Hugh Cornwell, Snapper

If I could have just one more wish
It would be for a fillet of fish
You wouldn't have to take out the bones
You could even serve it up on it's own
I call it snapper
I call it snapper

It doesn't come in just one size
The taste you just don't realise
I prefer it to wellhung game
Cos game always ends up smelling the same
I call it snapper
I call it snapper

Take me all over the world
Cafes bars restaurants the dishes unfurl
If I could be tempted by one sweet little thing
I'd have to admit that snapper is king snapper is king or queen

So my friend just eat your fill
Cos eating can turn into a thrill
You know meat can go off so fast
That's why I maintain right up to the last
Just give me snapper just give me snapper

Take me all over the world
Cafes bars restaurants the dishes unfurl
If I could be tempted by one sweet little thing
I'd have to admit that snapper is king snapper is king or queen
