

Hugh X. Lewis, Missing You

Missing you can't help but wish that you were in my arms tonight making love to me
Kissing you that's all I want to do it never seems just right now that we are apart
I always spend my time just writing lines to you
Can't wait for you to write saying you love me too
Missing you can't help but wish that you were in my arms tonight making love to me
[steel]
I always spend my time...
