Hughes Turner Project, Devil's Road

[Hughes/Turner/Marsh]

I got my posi-traction I'm hell on wheels I'm made of iron blood and steel I'm always set for action I'm shifting gears I'm running faster than my fears

I'm leaving everything behind me I'm on a race with destiny I'm going where my dreams can find me Somewhere I can be free

I can see heaven, it's a long way to go And I'm riding the devil's road I can hear angels singing lifting my soul But I'm riding the devil's road

I got my higher power He come to me on the seventh hour Never burn my ivory tower Now I have been set free
