

Human Hamster Hybrids, This Is Me / Star

I am just who I am. I am just me.
Can't you see?
This is everything I want to be
Everything I want out of life is right here
Right now
I used to think I wouldn't make it
But now I know I already have
If you don't believe that
Then why don't you see for your self?
This is me this is the way I am
You can't change me
Even if you tried
I have been here for many years
But when you say you don't know me
I'll have to break down into tears.
This is the way I am
This is the way I am
This is the way I will always be
This is just I
This is the way... I am oh, oh yes
It's just me
