

# Human Nature, Haunted

Every step I take  
I see your face  
In each window pane  
In a house without your light  
Anymore  
Just don't feel the same  
If my mind could speak  
What my heart would say  
I'll let it be and go away

Midnight's gone  
And it's been too long  
Now I'm a shadow of myself  
You left me wanting nothing else

[chorus]  
This house is haunted since you left me, baby  
This heart is broken and I'm going crazy  
The scent of you Left me so consumed  
Your presence is in every room  
My heart is haunted  
Everything I wanted  
Left with you baby I'm haunted

Your silhouette is gone  
It had to fade  
But I still feel you here  
Angels never cry  
Rain won't subside  
Am I feeling heaven's tears  
My soul can't leave what I used to need  
And its more than I can throw away  
Another sun has set  
But I can't forget  
Deep inside I feel the pain  
Cause I won't see you back again

[chorus]  
There's nothing left anymore  
Gotta let you go  
No shame, No hurt no more  
I gotta let it go
