

Human Nature, Send It In A Letter

I saw it somewhere in a magazine
Or maybe saw it playing on a TV screen
Something about love - Now I forget it
Maybe it was how not to regret it
Oh yeah
I heard it playing out on the radio
It said when you're in love you gotta take it slow
But baby with you I can't beat about it
I just got to make you believe it
Oh yeah

So I'll
Send it in a letter baby
Write it on the wall
That's the way I like it
Losing all control
Send it in a letter baby
Then you'll understand
You put a start on me
Right through the heart of me

Somebody help me now get back to ground
The way you got me turning upside-down
But baby you know I can't do without it
I get depressed just thinking about it
Oh yeah

So I'll
Send it in a letter baby
Write it on the wall
That's the way I like it
Losing all control
Send it in a letter baby
Then you'll understand
You put a start on me
Right through the heart of me

'Cause I like all the things that you do to me
And I'm sending my message to you
You got a special kind of mystery
And it sends me on

So I'll
Send it in a letter baby
Write it on the wall
That's the way I like it
Losing all control
Send it in a letter baby
Then you'll understand
You put a start on me
Right through the heart of me
