

# Human Nature, Walk The Tightrope

Feel the music come alive  
Let the rhythm get you high  
If you wanna live then you gotta give  
The best of what you got

Foolish people better walk  
Don't say nothin' when they talk  
No they'll never see all they're meant to be  
Just livin' on the spot

Now I'm movin with the times I  
Can't escape what I believe  
Cause all I need's all I know  
So I - Walk the tightrope let myself go

[chorus]  
Walk the tightrope we call life  
I walk the tightrope  
Step by step I take the street - yeah  
Live my life, can't stop my feet  
My feet from dancin'  
Walk the line come walk with me - yeah

Walk the city late at night  
Don't you stop it - you can't fight  
Walk the borderline, take a chance this time  
And run with what you got

There's no trouble in my mind cause I  
Ain't got nothin' left to prove  
All that you get is what I show  
So I - Walk the tightrope let myself go

[chorus]

Walk the line. Now's the time  
Walk the tightrope - Yeah  
Walk the line , Now's the time  
Walk the tightrope - Yeah  
Roll with what you know

Now I'm movin with the times I  
Can't escape what I believe  
Cause all I need's all I know  
So I - Walk the tightrope let myself go

[chorus]
