

# Human Nature, Whisper Your Name

Baby I know you've been missin' me  
(And he knows you've been playin' around)  
We make a special kind of chemistry  
(Everytime you've been coming down)  
Oh if it's wrong to be lovin' you  
(Why does it feel so good to me?)  
Baby tell me what I gotta do  
(To lay you down and to make you believe)  
We rocked the cradle let it fall  
Leave him now or lose it all  
We got something special that we won't find again  
'Cause every time I lie with you  
Babe he knows you're lyin' too  
Tell me who's lovin' you

Does he whisper your name?  
Can he love you like this?  
Does he love you the way that I love you baby?  
Does he whisper your name?  
Can he love you like this?  
Does he love you the way that I love you baby?

I never thought I'd be doin' you  
(But I heard you were diggin' on me)  
Can't you see what we got into  
(It's not a fling you can get up and leave)  
You had the time baby I had the place  
(So we could get it on)  
Baby turn around and show your face  
(Cause it's time you let him see)

We rocked the cradle let it fall  
Playin' me you risked it all  
Baby we made lovin' like we won't find again  
'Cause every time I lie with you  
Babe he knows you're lying too  
Tell me who's loving you

Oh tell me  
Does he whisper your name?  
Can he love you like this?  
Does he love you the way that I love you baby?  
Does he whisper your name?  
Can he love you like this?  
Does he love you the way that I love you baby?

Does he whisper your name?  
Can he love you like this?  
Does he love you the way that I love you baby?  
Does he whisper your name?  
Can he love you like this?  
Does he love you the way that I love you baby?

(Look at me now) I know that I'm for real  
(Gotta believe) Oh I'll love you like no other baby  
(Now is the time) Time to tell him goodbye  
No-one else can love like I do  
(No-one loves you the way that I love you)

Does he whisper your name?  
Can he love you like this?  
Does he love you the way that I love you baby?  
Does he whisper your name?  
Can he love you like this?

Does he love you the way that I love you baby?

[Chorus to fade]
