

Human Waste Project, Get With It

Keep pushing me down
Just can't get outta my head
You're sugar coated
Feelin so forced feed
Lost and mindless
Can't get outta my head
Swallowed, sinking in

I'm tired of waiting
It's over
I'm over this

I'm stuck and sinking
Can't get outta my head
Get so heavy
Waiting for you
Those words and pictures
That won't go away
Would you rearrange

I'm tired of waiting
It's over
I'm over this

Tired of waiting
I'm waiting for this to begin
When it's already over
I'm already gone
I'm already gone

Rearranged me
Tried to on for size
Stumbling, I trip
And still I wonder
When you wore me
How did I feel?
Did I fit like her?

I'm tired of waiting
It's over
I'm over this

Tired of waiting for this
To begin
When it's already over
I'm already gone
I'm already gone

You think you're so fucking cool
And if I got with you would I be cool too?
