

Hundred Inch Shadow, get away

i need to get away
from my entire life
now i've got to find a way
to get me out of this
i don't need to fit anywhere
i can live for myself
it makes me so depressed
i know i've got to quit my life again
i've lost what's really valuable

i need to get
away from this
material world
forget my desires
it makes me feel
depressed again
i need a change
won't waste my time again

i need to find
a better way
a knowledge
how to get away from this
i need to try
i need to find
some courage
and quit my life today
