

# Hunger, All I Want

Is it getting better  
Or have I failed to see  
Deep lines run your face  
Like a, like a river to the sea  
Small white flowers  
And acid leaves  
Lay above your face  
Where you used to breathe

All I want, is all I need  
Take me high, let me see  
All I want, is all I need  
Take me there

Darkest is the hour  
When you come to me  
Low in sound  
Goes my hert  
Is this the witching hour

Or does my heart still bleed for you  
I've seen your face before  
Now it comes through in a dream

All I want, is all I need  
Take me high, let me see  
All I want, is all I need  
Take me there

How can you take life with ease  
Take all that meant much to me  
I just want what you took from me

All I want, is all I need  
Take me high, let me see  
All I want, is all I need  
Take me there
