

Hunger, Sonic Wasteland

Live by a big blue screen
A revolution in killing machines
The illusion is real and in 3-D
I feel so at ease
Sit at home and watch you bleed
Rape my senses, fill me with disease
Cause I - have - faith
In what I see
Cause I - can't - wait
You'll burn or bleed
It's all I want
Virtual, electric screams
I'm a killing machine
I'm a killing machine
I'm a killing machine
Watch me and I'll make you believe
May I hear or see
A bomb, killing, or atrocity
The land of the free and the dead
Take a look at me
The execution on your TV
Program your head
Then you breed
Travel the sonic wasteland
Plug in and tune in
Taste my ecstasy
Where's my sex and violence
Magnify and glorify
Squeeze the juice
The killer he may be
Cause I - have - faith
In what I see
Cause I - can't - wait
You'll burn and bleed
It's all I want
Virtual, electric screams
