

Hunters & Collectors, I Believe

(Ray Charles)

One of these days, and it won't be long
You're gonna look for me and I'll be gone
Because I believe
I said I believe right now
Well I believed to my soul
You're trying to make a fool out of me
When you're going around with your head so high
I think I'm gonna have to use my rod
Because I believe
I said I believe right now
Well I believed to my soul
You're trying to make a fool out of me
Last night you were dreaming and I heard you say
Oh Johnny!
When you know my name is Ray
That's why I believe
I said I believe right now
Well I believed to my soul
You're trying to make a fool out of me
I believe it
You're trying to make a fool out of me
