

# Huntingtons, Hooray For You

tell me something would you  
you're so mean how could you  
treat me like i'm nothing  
think it's okay, okay  
i was so confused  
and now i'm being used  
and you just go on thinkin'  
that it's okay, okay alright

thought i could save it then you tricked me baby  
you made it sound like there was something i could do  
i jumped right through  
you lied again but you're so convincing  
you made it sound impossible but true  
hooray for you

i hope in my heart to you (?)  
i really thought i knew you  
everyone knows my secrets  
that's not okay, okay  
oh you wanna tell me something  
but it's always something nothing  
never make me think  
that it's okay, okay alright

then again you got me baby  
you made it seem that there was something i could do  
i jumped right through  
you got it down to a science neatly  
you made it sound impossible but true  
hooray for you
