

# Huntingtons, What Do You Wanna Do?

Feel sick I don't know what to say  
Frustration building everyday  
I've got to figure something for myself  
I look at you and I see your frown  
Another day when you're feeling down  
Is it me or is this something else?

I wanna take your hand  
And make you understand  
That I thank God  
He put me on this earth with you  
What am I supposed to say?  
Cause I think about you everyday  
But I gotta know just what you wanna do

Don't wanna scream I don't wanna shout  
Want to sit and figure this all out  
Let's turn the TV off and spend some time  
Spend a dollar yeah we spend one more  
What exactly are we aiming for?  
Cause I know this isn't what we had in mind

If I could give you what you want  
Would it make your life complete?  
I know you don't believe it's true  
But yes I want it too  
So please tell me cause I'm here waiting  
What do you wanna do, What do you wanna say?
