

# Hurricane #1, I Believe In Magic

I can not not believe when you stand here before me  
how can you understand what is so hard to say  
Can't find the words to describe it  
cos it is getting away  
I believe in the magic that I seem to do  
Don't want a part of the world all hung up on illusion  
When the best they can offer is just out of hand  
Maybe they know what they're missing  
Maybe they don't realize  
I believe in the magic I see in your eyes  
Maybe they know what they're missing  
Maybe they don't realize  
I believe in the magic I see in your eyes
