

HUSH, Calling road

a town - a calling road
a place - which is my home

fall tumbling building - a rolling it right by
hush the passing time - I see you in my eye

reach out - a falling word
we cry - a chant absurd

the rhyme and the run - to give my heart that lust
it all comes crash - a crumblin' down like dust

seeming like the night might fall
I hold you tight my daughter
feeling like the sun might call
I watch you like big brother
working on a master plan
mountains seem further
feel it, stop it, let it go - again

we're down - a blackened time
we fall - a state of crime

the dim and the dark - a went it all like dusk
comes that smashing sound - when I hear it break the crust

seeming like the night might fall
I hold you tight my daughter
feeling like the sun might call
I watch you like big brother
working on a master plan
mountains seem further
feel it, stop it, let it go - again
