

Hybrid, Dogstar

I'm a comin' in on the stellar surgance
With all my love; I overflow the river Nile
Rolling on for thousands of miles
We can celebrate your helical rising
Ooh, we can activate our Christ seeds too
But it'll be fun

I don't want to wake up
With a beautiful stranger
A Canis Major star
Uh huh uh huh
A major star
And when you feel the heat that licks at the street
On dog day afternoons
That's my sweet tongue
In search for you

I inherited the spirit of the sun
I'll meet you when the day breaks through
It's time to shine
And make all your dreams come true
Come on...wish upon a dog star
Come on...wish upon a dog star
Come on...wish upon a dog star
Come on...wish upon a dog star
Come on...wish upon a dog star

I inherited the spirit of the sun
I'll meet you when the day breaks through
It's time to shine
And make all your dreams come true
Come on...wish upon a dog star
Come on...wish upon a dog star
Come on...wish upon a dog star
Come on...wish upon a dog star
Come on...wish upon a dog star

I don't want to wake up
With a beautiful stranger
A Canis Major star
Uh huh uh huh
A major star
And when you feel the heat that licks at the street
On dog day afternoons
That's my sweet tongue
In search for you
