

# Hybrid, High Life

Can't come down.  
I like the view from here,  
And i won't come down.  
Not 'til you come near,  
I've been wasting.  
Away up here,  
I'll be waiting.  
'Til my thoughts come clear.

Perched up here.  
In my lookout tower,  
Froze with fear.  
At the midnight hour,  
I think I stay.  
Where life is safe and sound,  
It's the end of me.  
If I come down.

'Least we're livin' the high life together.  
We'll be lovin' the high life forever.  
'Least we're livin' the high life together.  
We'll be lovin' the high life forever.

Seems to me,  
It's just a way of life,  
Altered states.  
They make it seem alright,  
'Cause who's to say,  
Whether it's wrong or right?  
It fills the need,  
To get me through the night.

'Least we're livin' the high life together.  
We'll be lovin' the high life forever.  
'Least we're livin' the high life together.  
We'll be lovin' the high life forever.

'Least we're livin' the high life together.  
We'll be lovin' the high life forever.  
'Least we're livin' the high life together.  
We'll be lovin' the high life forever.

Forever...

Can't come down.  
I like the view from here,  
And i won't come down.  
Not 'til you come near,  
I've been wasting.  
Away up here,  
I'll be waiting.  
'Til my thoughts come clear.

Can't come down.  
I like the view from here,  
And i won't come down.  
Not 'til you come near,

Away up here,  
I'll be waiting.  
'Til my thoughts come clear.

'Least we're livin' the high life together.  
We'll be lovin' the high life forever.

'Least we're livin' the high life together.  
We'll be lovin' the high life forever.

'Least we're livin' the high life together.  
We'll be lovin' the high life forever.  
'Least we're livin' the high life together.  
We'll be lovin' the high life forever.

Forever...
