

# Hybrid, Out Of The Dark

Same mistakes for what it's worth  
This time I held my nerve  
From on the edge to on the verge  
I'll get what I deserve

And you don't do this  
And you can't do that  
If it's all the same to you then I'm taken  
And you don't do this  
And you can't do that  
If it's all a game to you then I'm taken...in

Held back all the time  
It's just not my style  
Step straight and face the front  
You only break out once

And you don't do this  
And you can't do that  
If it's all the same to you then I'm taken  
And you don't do this  
And you can't do that  
If it's all a game to you then I'm taken...in
