

# Hydrogyn, Breaking Me Down

Looking at life  
Through others eyes  
Is the wrong solution  
Hiding the fears that hold the cries  
Creates the mind pollution  
Reaching out from within the lies  
And escape the illusion now  
I know you  
You know me  
I'm all the things  
In your dark that hide  
I'm Coming  
Your Going  
One million miles right by your side  
Your brightest hour  
Is when I come to you  
Your answers  
Need questions  
It's the wrong side of the right  
Completion  
Deletion  
How convenient at the time  
Look away but I am into you
